Task briefing:
A Twitter user shared three photos of an event.
Please answer the following questions:

a) Which event is being celebrated in the photos? Voodoo festival
b) Which two photos were taken by the same person?

c) The two photos mentioned above were taken in the same city. The photographer was previously in a different city. Find out the name of that city.

->Benin

Task briefing:
I took the photo below whilst riding a train in the UK. I always prefer quiet areas where no one can sit behind me because, in a public space, no information is truly private.

Your task is to:

a) Uncover what the person in front of me was reading.

->The fair botanists e-book

b) Identify the train model.

->LNER AZUMA

c) Identify my seat number.

-> Seat-83

Task briefing:
The refugee crisis in Central Africa has been ongoing for decades. With millions of people fleeing violence, humanitarian agencies play a critical role by providing assistance, including emergency shelters.
The video below, published in October 2007, shows the situation in a refugee camp in the Democratic Republic of the Congo. The structures seen in the footage are long gone, as the conflict in the region waxes and wanes. Geolocating temporary accommodations is often challenging, as satellite images are scarce and the situation on the ground volatile. It is, however, still possible.

Your task is to:

a) Find the exact location of the white tent seen in the video below at the 1:16 minute mark.

Note: Please be aware that this exercise may expose you to distressing content, as refugee camps often harbour people in vulnerable and difficult conditions.
